ICL Stockline Support Group Public Petition

On May 11th 2004 the worst workplace health and safety disaster in Scotland since Piper Alpha in 1988 occurred at the ICL/Stockline factory in Glasgow when, tragically, nine people lost their lives, and more than 40 others were seriously injured. We, the undersigned, support the ICL/Stockline Support Group's call for a public inquiry. We agree that only through an open public inquiry will the victims, and relatives of the victims, be provided with a full explanation of the causes of the deaths and injuries. Further, only a public inquiry can reveal the full facts surrounding the disaster and bring about the changes that can prevent the recurrence of such a tragedy.
